

GILL DISEASE MEETING IN NORWAY, OSLO 25-26 TH OCTOBER 2023

Gill disease is a major issue across the aquaculture industry. Focused research questions and cross-industry information sharing is needed.

The Gill Health Initiative (GHI) bring together industry and researchers and focus on key research areas that will inform best practice management of gill disease. Further, GHI want to promote exchange between researchers and industry for faster information sharing and streamline research efforts across Norway, Scotland, Ireland and Australia.

Time and place: Red Cross Conference centre, Hausmanns gate 7, Oslo
October 25th 09 AM -October 26th 15.30 PM

To participate in the meeting, please register here :<https://www.gillhealthinitiative.org/>
