

Artiklar i vitskaplege tidsskrift med referee

Gjerde, B., Saltkjelvik, B. 2009. Susceptibility of Atlantic salmon and rainbow trout to the salmon lice *Lepeophtheirus salmonis*.

Aquaculture 291, 31-34. <http://www.sciencedirect.com/science/article/pii/S0044848609002385>

Gjerde, B., Saltkjelvik, B., Ødegård, J. 2010. Quantitative genetics of salmon lice resistance in Atlantic salmon at different life stages.

9th WCGALP, Leipzig, Germany, 2.-6. August.

<http://www.kongressband.de/wcgalp2010/assets/pdf/0309.pdf>

Krasnov A, Timmerhaus G, Afanasyev S, Jorgensen S.M. 2011. Development and assessment of oligonucleotide microarrays for Atlantic salmon (*Salmo salar* L.).

Comp Biochem Physiol Part D Genomics Proteomics, 6:31-38.

<http://www.sciencedirect.com/science/article/pii/S1744117X10000389>

Gjerde, B., Ødegård, J., Thorland, I., 2011. Estimates of genetic variation in the susceptibility of Atlantic salmon (*Salmo salar*) to the salmon louse *Lepeophtheirus salmonis*.

Aquaculture 314, 66–72. <http://www.sciencedirect.com/science/article/pii/S0044848611000664>

Tadiso T., Krasnov A., Skugor S., Afanasyev S., Hordvik I., Nilsen F. (2011). Gene expression analyses of immune responses in Atlantic salmon during early stages of infection by salmon louse (*Lepeophtheirus salmonis*) revealed bi-phasic responses coinciding with the copepod-chalimus transition.

BMC Genomics 2011, 12:141 <http://www.biomedcentral.com/1471-2164/12/141>

Skugor S., Glover K. A, Nilsen F., Krasnov, A. 2008. Local and systemic gene expression responses in Atlantic salmon (*Salmo salar* L.) to infection with the salmon louse (*Lepeophtheirus salmonis*).

BMC Genomics 2008, 9:498 <http://www.biomedcentral.com/1471-2164/9/498>
