Lakselus: *Lepeophtheirus salmonis*

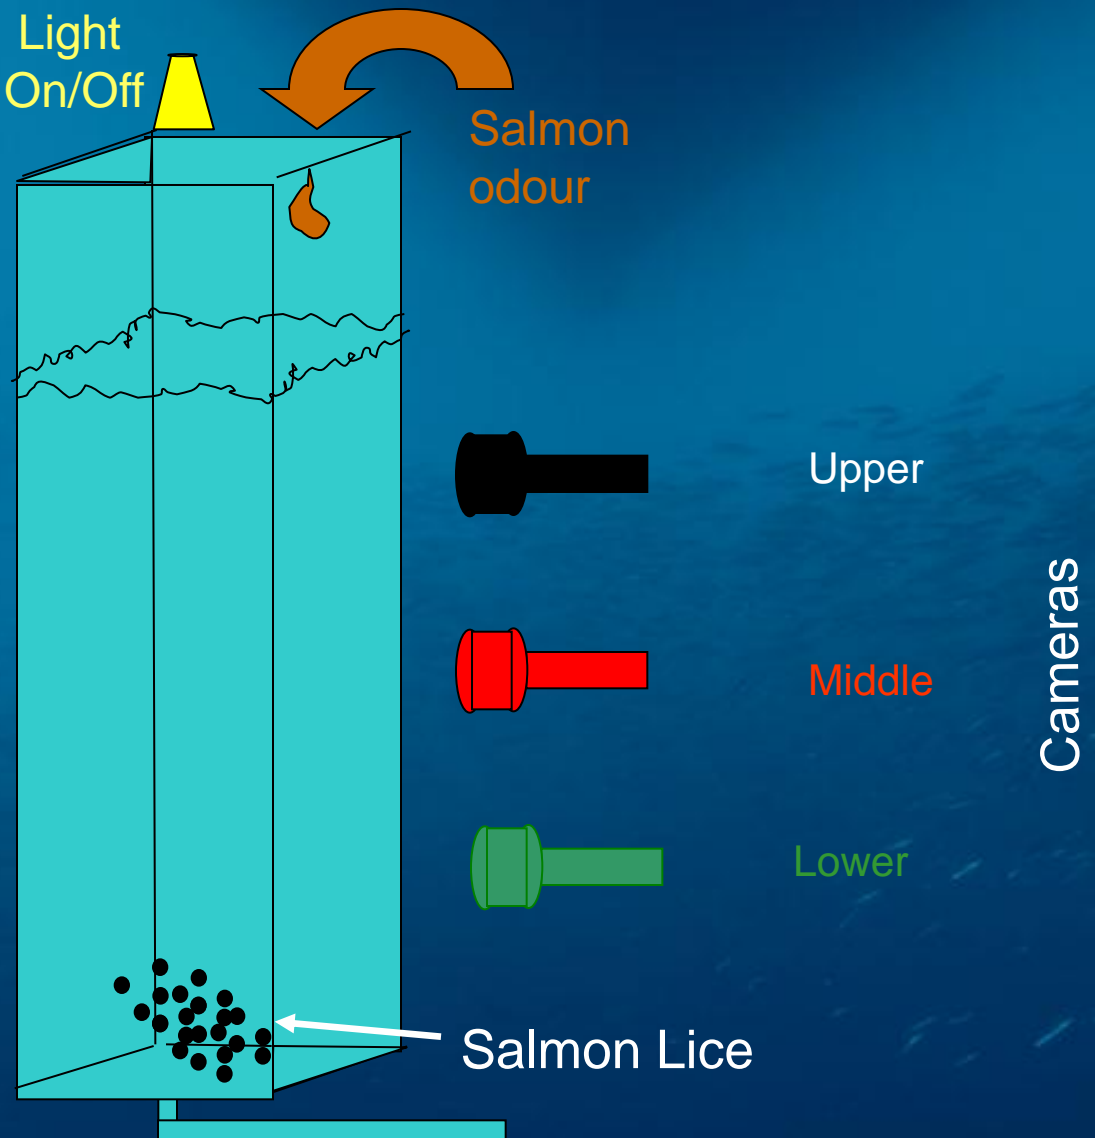

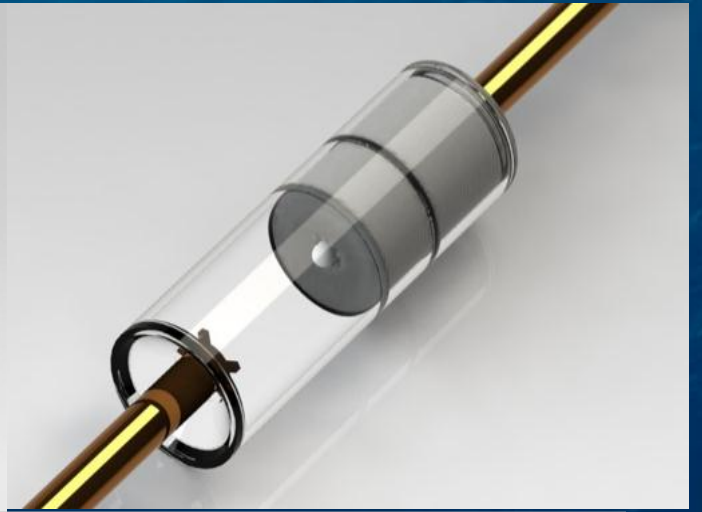

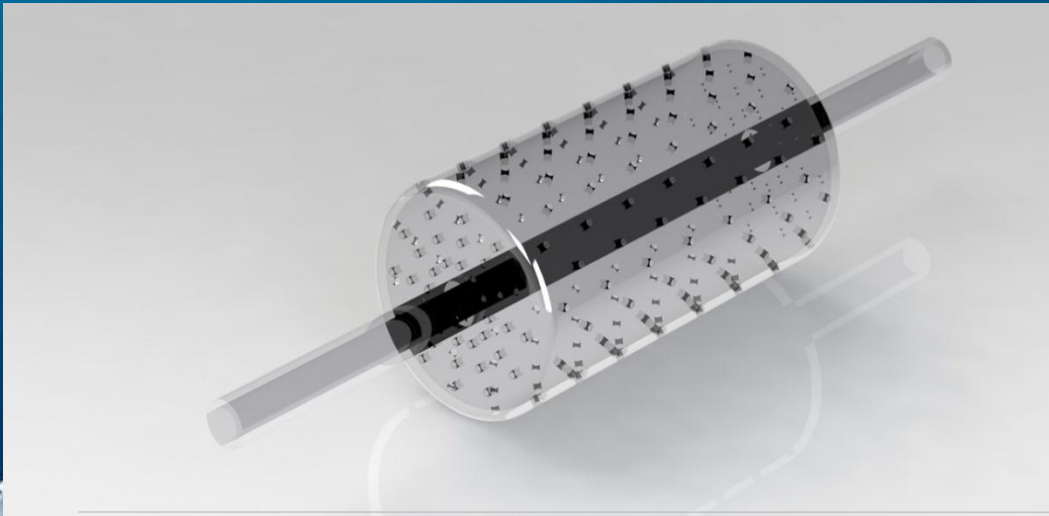

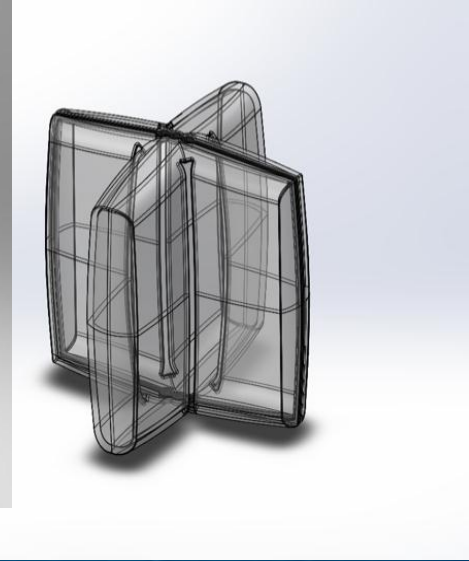

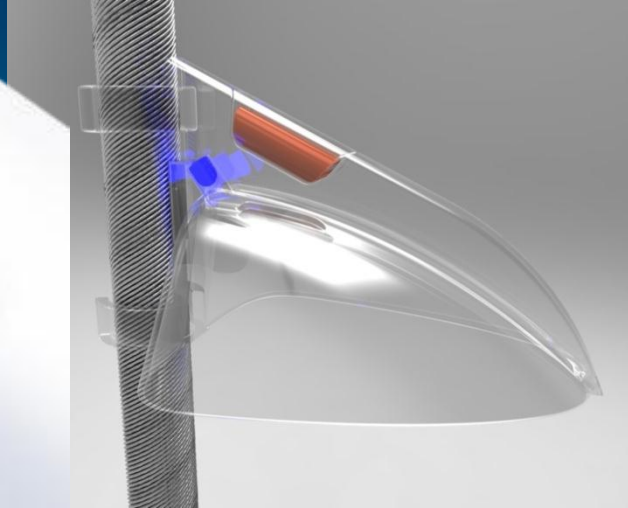

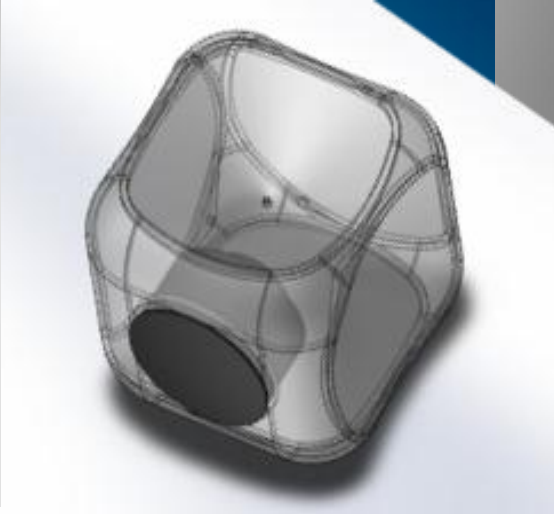

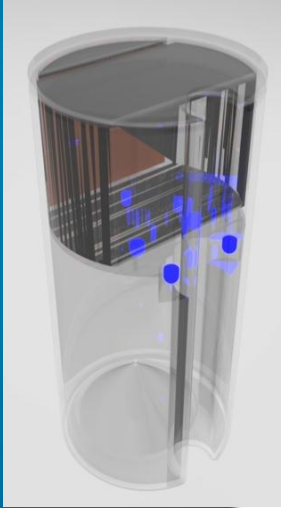

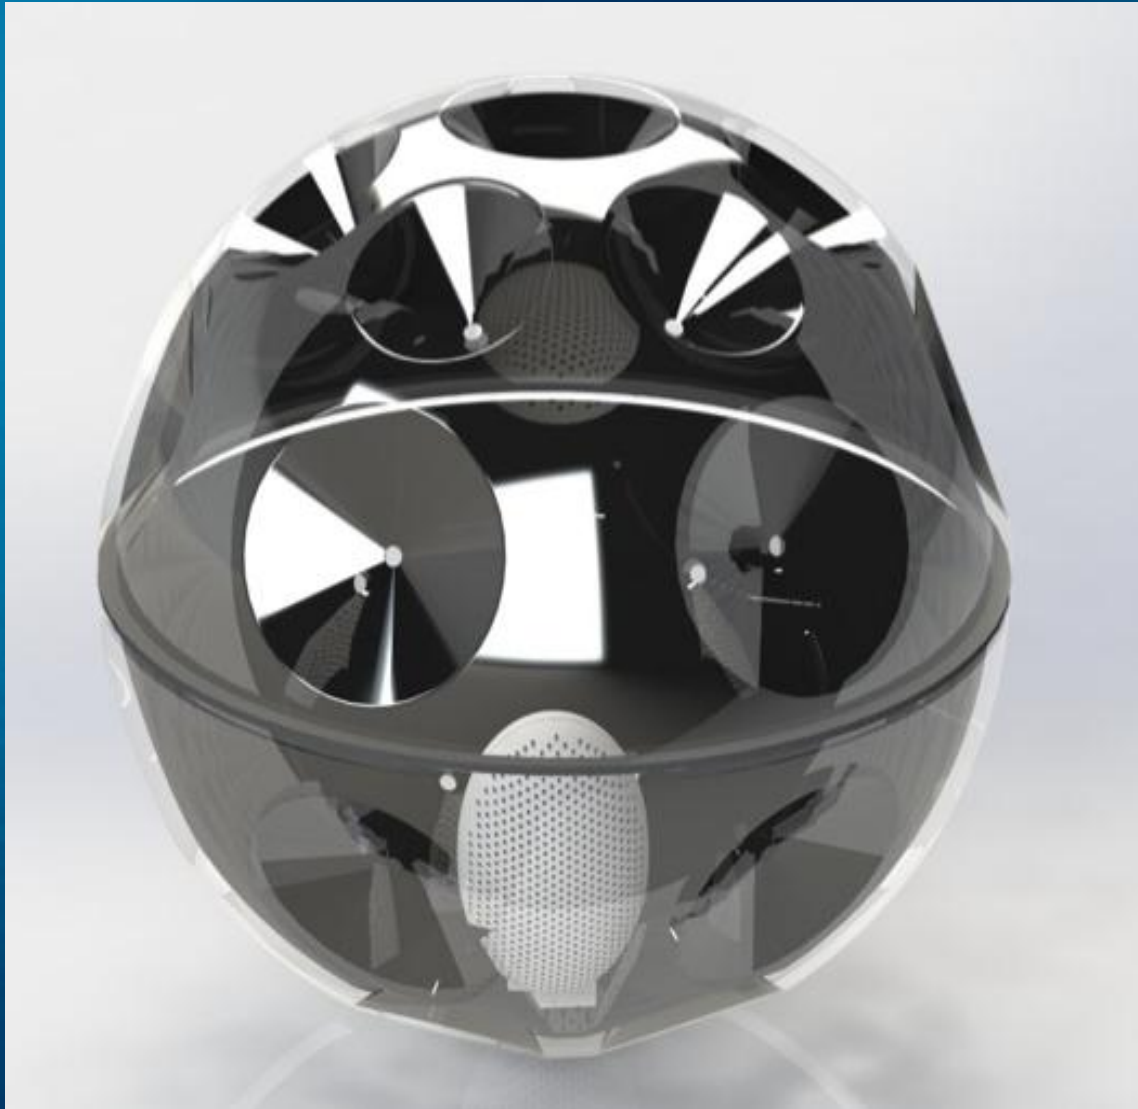

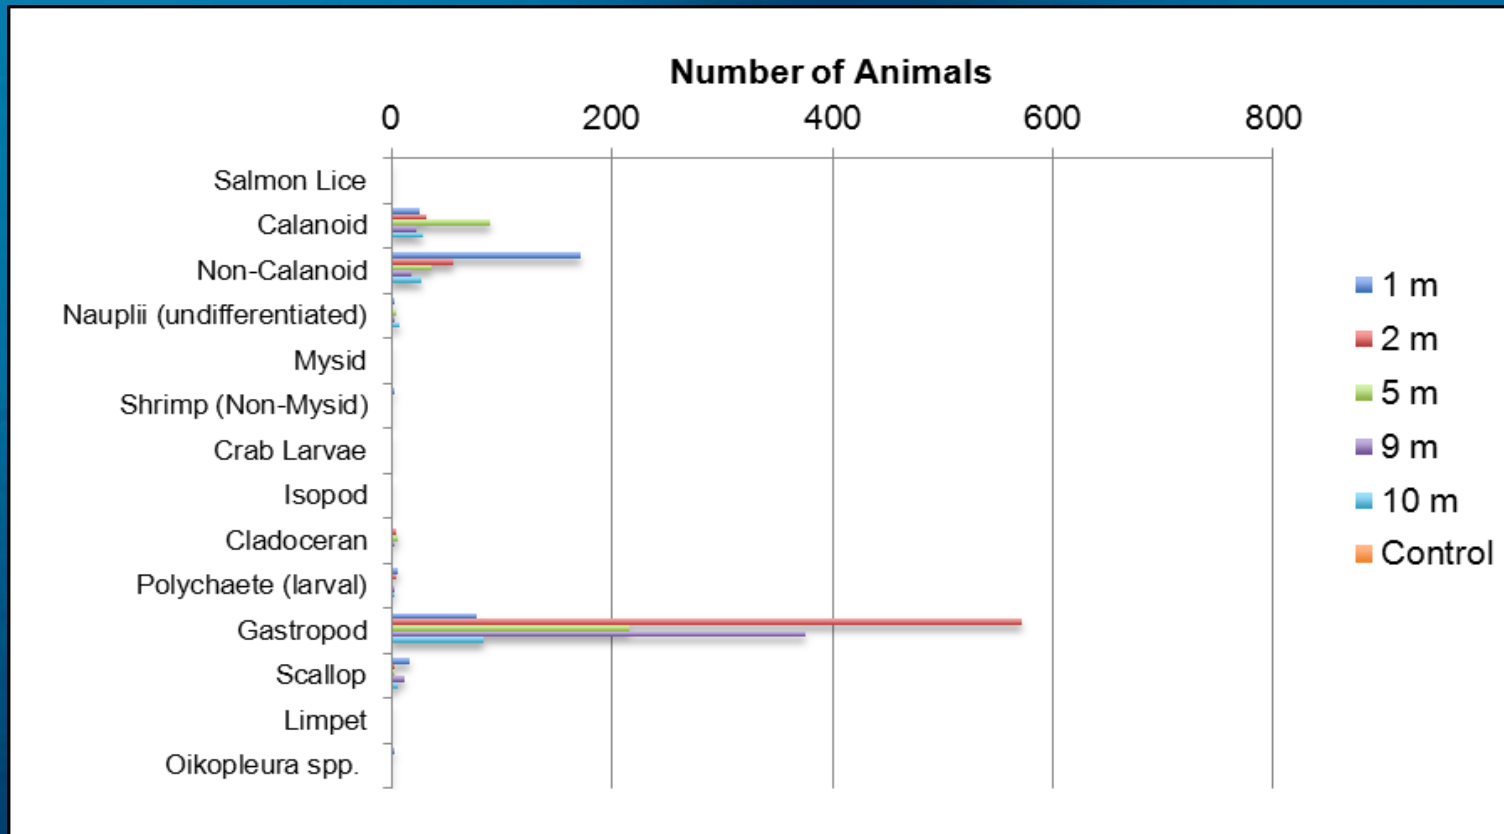

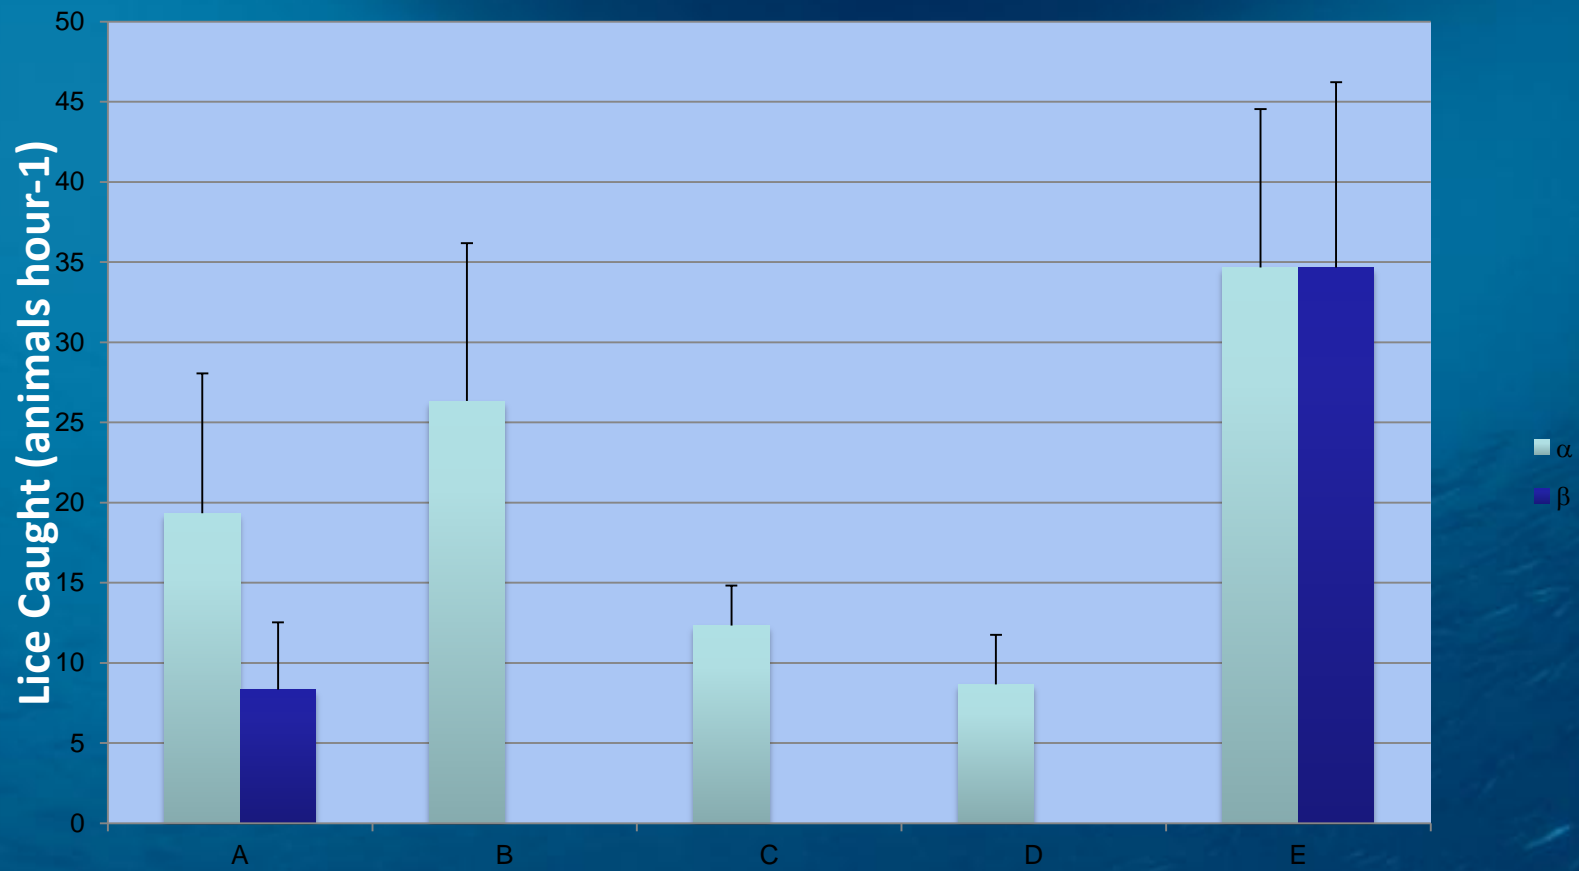

Feltforsøk utført på HELGELAND HAVBRUKSSTASJON

Resultat etter feltforsøk med prototype lusefelle

Neste skritt

- **Forbedre utforming av fellene**
- **Teste feller under kontrollerte forhold**
- **Teste igjen i feltforsøk**
- **Se på muligheten til at feller kan brukes til overvåking av lusnivå**
