The True Size of Africa

A small contribution in the fight against rampant *Immappancy*, by Kai Krause

Graphic layout for visualization only (some countries are cut and rotated)
But the conclusions are very accurate: refer to table below for exact data

COUNTRY	AREA x 1000 km ²
China	9.597
USA	9.629
India	3.287
Mexico	1.964
Peru	1.285
France	633
Spain	506
Papua New Guinea	462
Sweden	441
Japan	378
Germany	357
Norway	324
Italy	301
New Zealand	270
United Kingdom	243
Nepal	147
Bangladesh	144
Greece	132
TOTAL	30.102
AFRICA	30.221

In addition to the well known social issues of *illiteracy* and *immureracy*, there also should be such a concept as "*immappancy*", meaning *insufficient geographical knowledge*.

A survey with random American schoolkids let them guess the population and land area of their country. Not entirely unexpected, but still rather unsettling, the majority chose "1-2 billion" and "largest in the world", respectively.

Even with Asian and European college students, geographical estimates were often off by factors of 2-3. This is partly due to the highly distorted nature of the predominantly used mapping projections (such as *Mercator*).

A particularly extreme example is the worldwide misjudgement of the true size of *Africa*. This single image tries to embody the massive scale, which is larger than the *USA*, *China*, *India*, *Japan* and *all of Europe*..... combined!

Nigeria – ei afrikansk stormakt

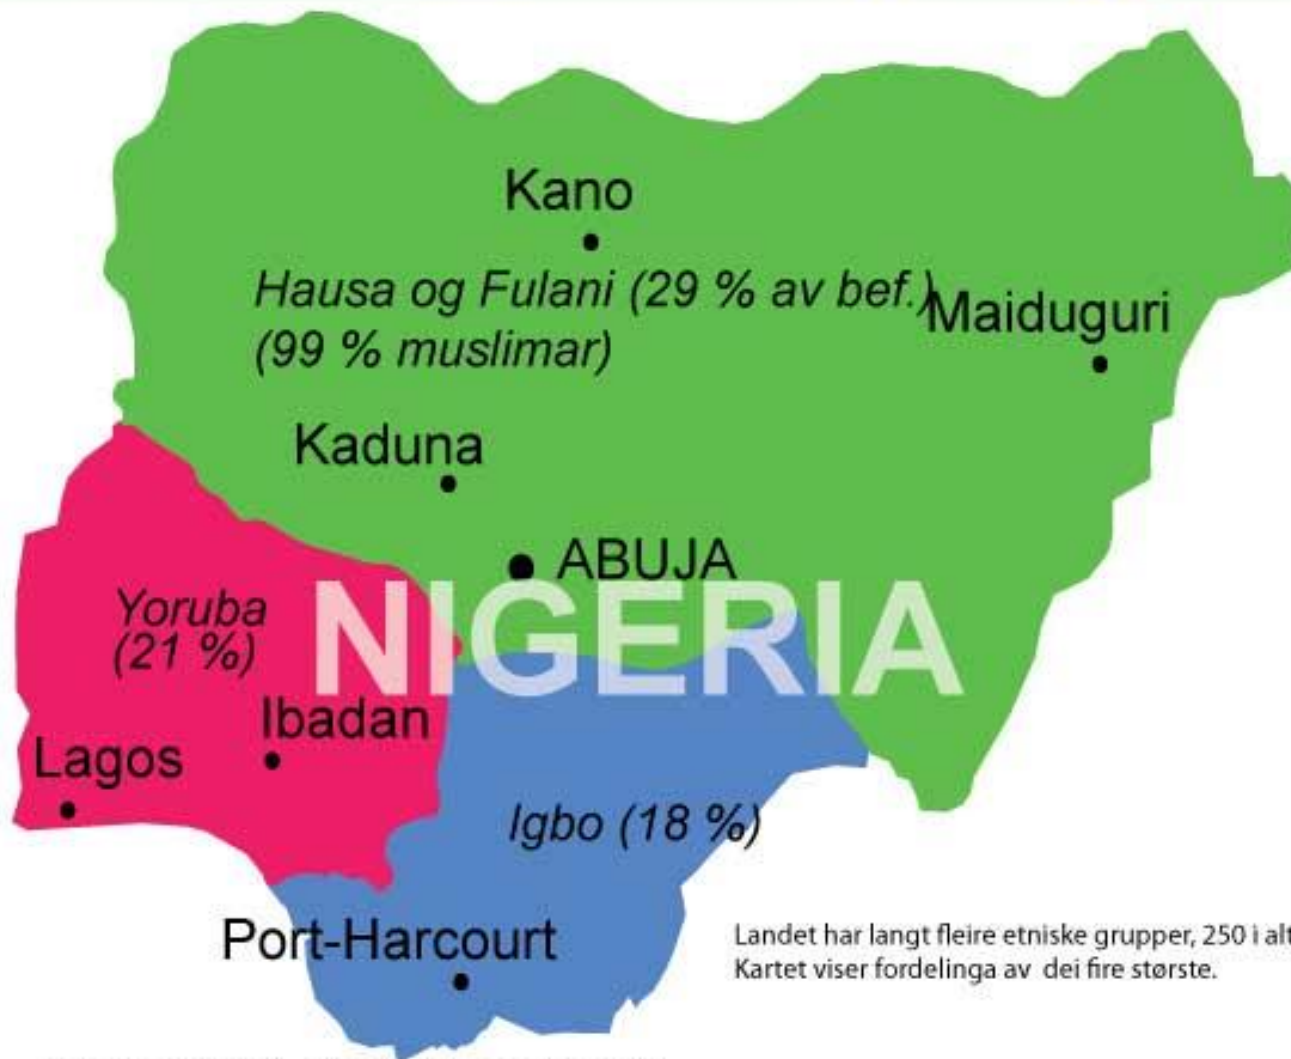

Fattigdom – Afrika sliter

Share of Population living in Absolute Poverty by World Region (1981-2001) – Max Roser

Etnisk-religiøs deling i Nigeria

Landet har langt fleire etniske grupper, 250 i alt. Kartet viser fordelinga av dei fire største.

Kjelde: CIA World Factbook

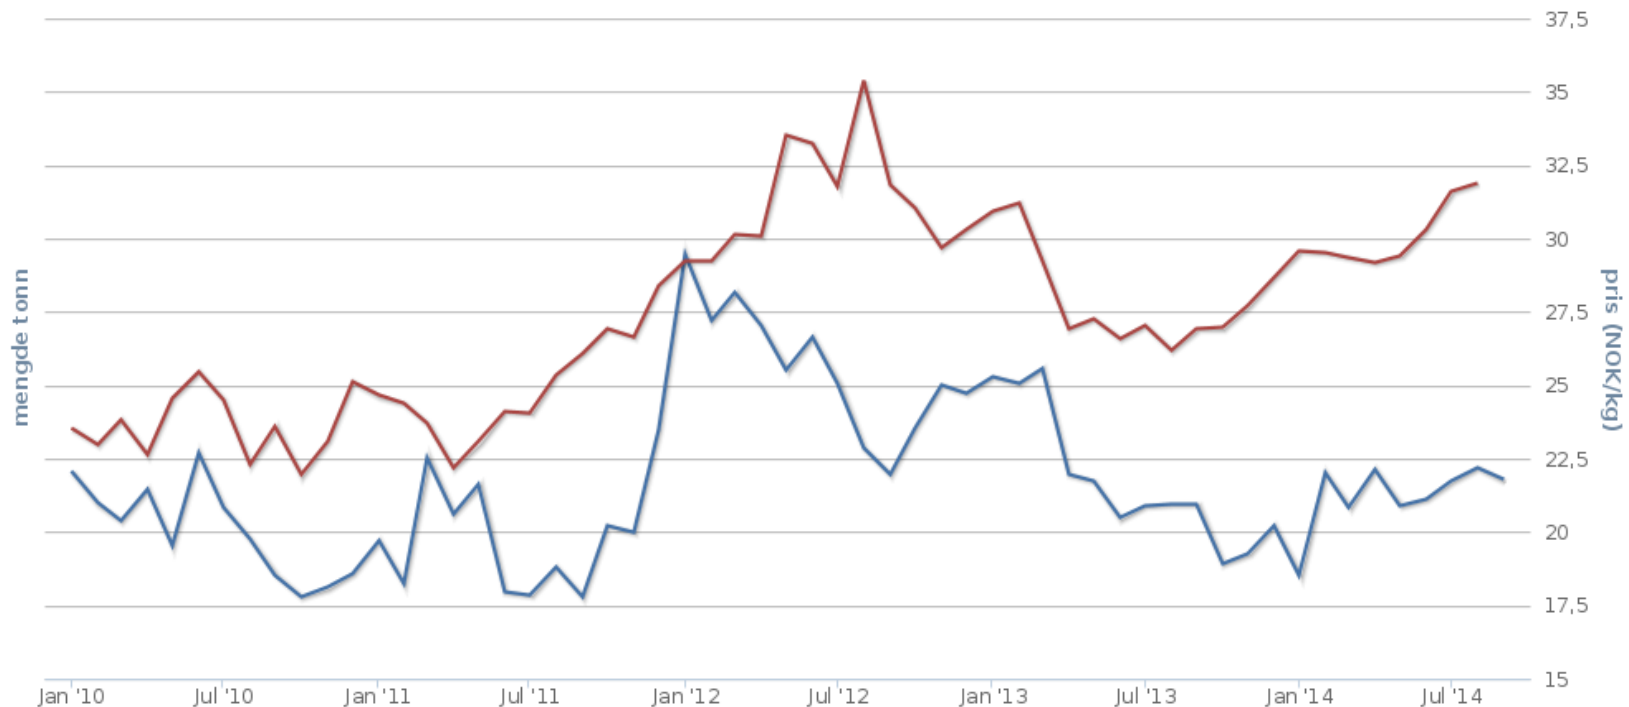

Hovedutfordringer for Nigeria

- Matproduksjon – egenforsyning
 - Forsømt landbruket/matproduksjonen
- Fordeling
 - De fattige tar ikke del i den voksende økonomien
 - Befolkningsveksten spiser opp deler av veksten
 - Jf. Boko Haram (det fattigste området)
- Oljeprisen - 80% av inntektene til føderasjonen
 - Jf. 1983
- Demokratisk utvikling

Infab recommends part-time legislature

From Thelema Eke and Gbadegbode Tunde, Abuja

TO ensure a drastic reduction in the cost of government, the national conference has recommended that legislators be given an extra salary, equivalent to their private sector jobs, for the duration of their part-time tenure. The conference also recommended a review of the salaries of the legislators to bring them in line with the private sector. The conference also recommended a review of the salaries of the legislators to bring them in line with the private sector.

Campaign for Democracy and Welfare Alliance, Dr. Olu Olu-Olunloye, NDDC Chairman, Abiodun Mikidade, Shekaru, Adeyeye, others make ministerial list.

Stockfish, others blamed for falling sperm rates

By Chibweh Mwanza

As an insight into why men's sperm counts are declining, a study has found that eating stockfish, tomatoes, and coffee can reduce fertility. The study found that eating stockfish, tomatoes, and coffee can reduce fertility. The study found that eating stockfish, tomatoes, and coffee can reduce fertility.

Jonathan presents N322.6b NDDC budget to Senate

'Coffee, alcohol do not reduce fertility'

ing being linked to the remaining food that neither coffee nor alcohol affects a man's ability to conceive, even when he consumes alcohol by itself. In particular, one who is not working or spending time writing or reading a journal should have a higher than average sperm count. In their study, lead study co-author Ashley Costello, a doctoral student at the Harvard School of Public Health, said: "Men engaging in leisure work, even for a few hours per week, especially one hour a day, had an average sperm count that was 14 percent lower than men who were engaged in less than one hour per week."

The study was presented at the 10th meeting of the International Federation of Fertility Societies, which was held in London. Put 200 g sugar into a saucepan and add 50 g (2 table spoons) of water. Heat until the sugar is melted and turning golden brown. Pour 2 table spoons of caramel in each of 4 small souffle dishes. Allow to harden.

Beat the whole egg with the yolk and whip until the mixture is thick. Pour the mix into the souffle dishes.

Preheat the oven to 180°C (350°F). Place the souffle dishes on a baking tray; bake for 10-15 minutes. Turn the oven for the last 5 minutes to brown the edges of the souffle.

Takk for oppmerksomheten

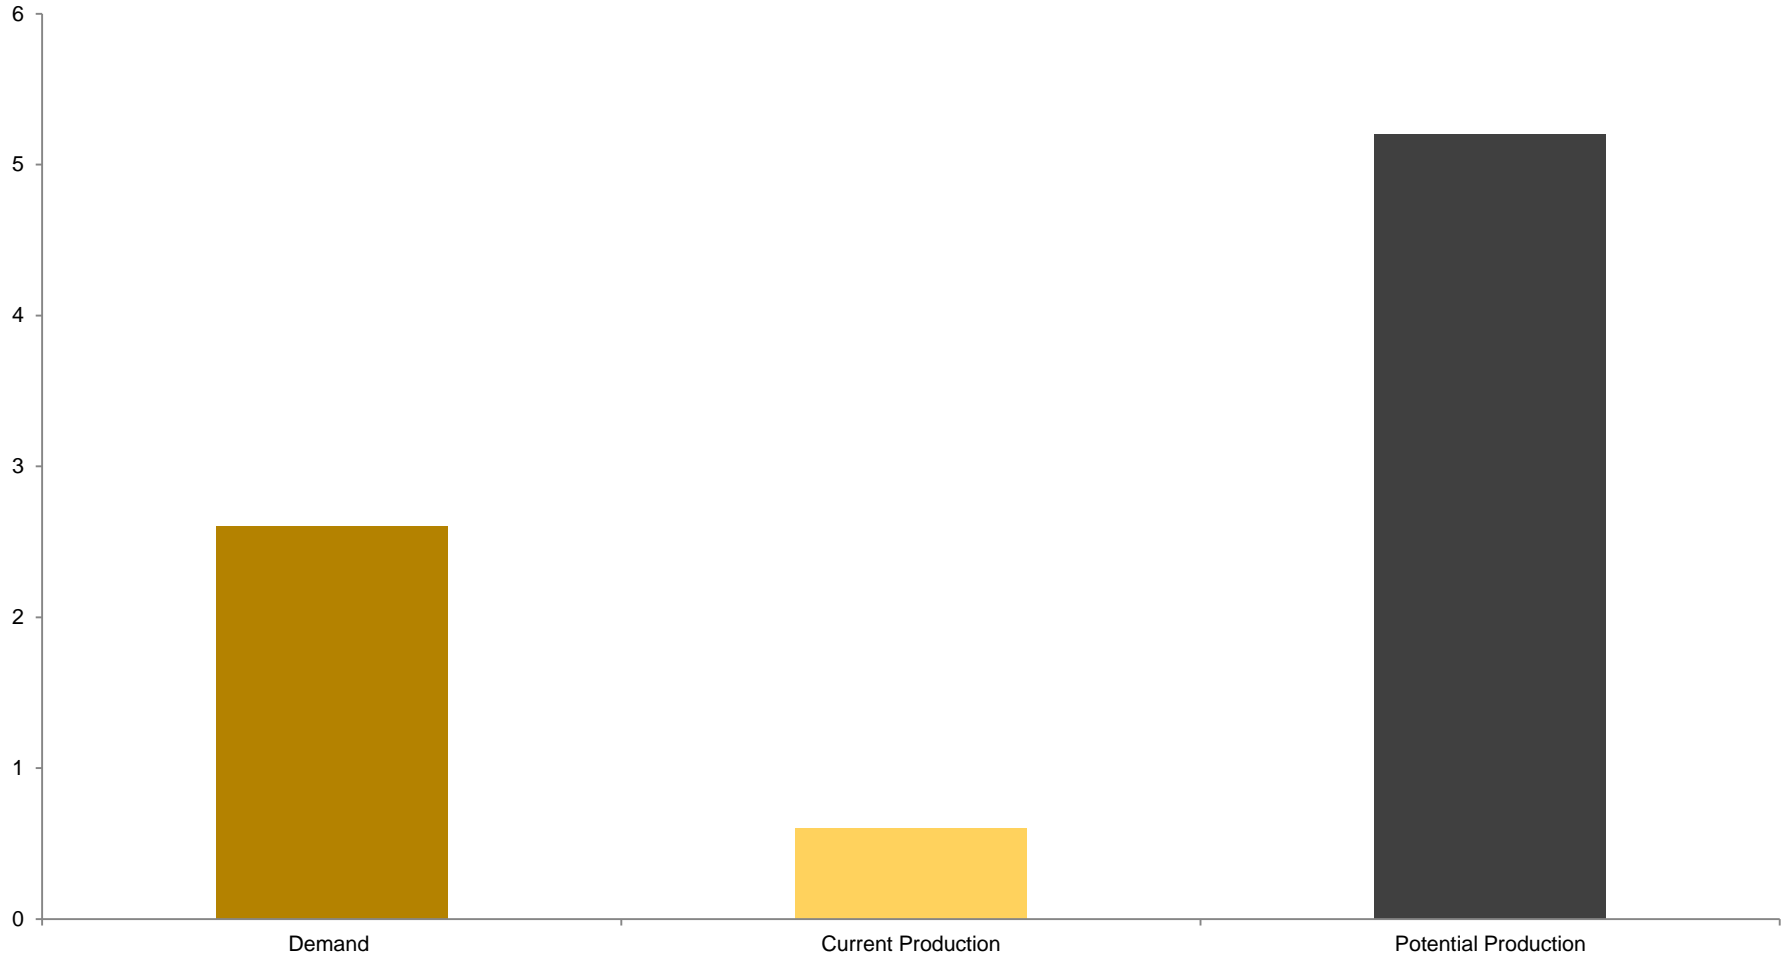

Agriculture «The new oil»

Nigerian Agriculture Minister Akinwumi Adesina named *Forbes African of the Year 2013* for his reforms to the country's farming sector.
